SCHEDULE TITLE: FSC 56, Attachment #6-Building Materials

FSC CLASS (ES): 5670

CONTRACT NUMBER: GS-07F-5624P

CONTRACT PERIOD: 3/2/04 to 3/1/19

MODIFICATION PO#0036: 03/10/2016

CONTRACTOR'S NAME, ADDRESS, TELEPHONE AND FAX NUMBER; E:MAIL AND/OR WEB SITE ADDRESS:

Roofing Resources, Inc.
423 McFarlan Road
Kennett Square, PA 19348

Telephone: 610-558-4000
Fax: 610-388-9415

CONTRACTOR'S ADMINISTRATION SOURCE: Rich Collins

BUSINESS SIZE/TYPE: Small Manufacturer

INFORMATION FOR ORDERING ACTIVITIES:

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SIN's)

<u>SIN</u>	<u>DESCRIPTION</u>
563-4	Roofing Products and Services

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN (except 563-98)
(Government net price based on a unit of one)

<u>SIN</u>	<u>MODEL</u>	<u>PRICE</u>
563-4	*	*

***See Available Services Below**

Standard Form 1449, Contract for Commercial Items (Cont'd)
Roofing Resources, Inc.
GSA Contract Number GS-07F-5624P

2. MAXIMUM ORDER PER SIN: \$200,000.00*

*If the "best value" selection places your order over this Maximum Order, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the Schedule contract in accordance with FAR 8.404

3. MINIMUM ORDER: \$100.00

4. GEOGRAPHIC COVERAGE: The 50 United States including Puerto Rico, Washington, D.C and all Other U.S. owned territories

5. POINT(S) OF PRODUCTION: Same as contractor's address

6. BASIC DISCOUNT: Vacuum Insulated Panels 3%
Acrymax Products 5%
Green Roof Products 2%
ELMS and Envirogrip Web Backed Sealant Tape 3%
All other products and Services vary from 2% to 20%

7. QUANTITY DISCOUNT (S): None

8. PROMPT PAYMENT TERMS: 1% 10 DAYS, Net 30 Days

9. TYPE OF GOVERNMENT PURCHASE CARD ACCEPTED: Master Card/VISA

10. FOREIGN ITEMS: None

11a. TIME OF DELIVERY: 30 Days ARO for all products/services; 90 days ARO for the Vacuum Insulation Panels.

11b. EXPEDITED DELIVERY: Call for negotiation.

11c. OVERNIGHT AND 2-DAY DELIVERY: same as 11b.

11d. URGENT DELIVERY: When the delivery period above does not meet the customer's bona fide urgent deliver requirements, customers are encouraged, if time permits, to contact the contractor for the purpose of requesting accelerated delivery. The contractor shall reply within 3 workdays after receipt. (Telephonic replies shall be confirmed by the contractor in writing.) If the contractor offers an accelerated delivery time acceptable to the customer, any orders placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

12. FOB POINT: Origin

13. ORDERING ADDRESS: Same as Contractor's Address

14. PAYMENT ADDRESS: Same as Contractor's Address

GOVERNMENT PRICE LIST – 2013

ROOFING RESOURCES, INC. (RRI) – YOUR ADVOCATE FOR ROOFING AND MASONRY CARE FOR YOUR FACILITY.

Roof investigation is necessary to define the true condition of a roof. Our technicians are well qualified to analyze all types of roof systems or masonry wall issues. Before a specification for repair and/or replacement can be written, it is imperative to properly investigate all existing roof conditions.

Roof Investigation:

563-4	Visual Roof Evaluations	Per Sq Ft	\$0.025
563-4	Minimum Per Building Under 20,000 Sq. Ft.		\$2,000.00
563-4	Core Sampling-Destructive Testing	Per Sq Ft	\$0.030

563-4	Minimum Per Building Under 20,000 Sq. Ft.		\$8,000.00
563-4	Asbestos Core Testing Sample and Lab Testing	ea	\$160.750
563-4	Core Analysis	ea	\$375.660

Vacuum Sealed Roof Insulation- Patent Pending

What is this Technology?

The Vacuum-Insulated Panel (VIP) is a thin, highly efficient insulation material that can provide thermal resistance up to 5 times greater per unit of thickness than polystyrene or polyurethane insulation and up to 10 times greater than glass wool, with state of the art product achieving R50 in one-half inch thickness. This technology is particularly relevant for retrofit applications, where the thickness of insulation using incumbent technologies would require an increase in parapet height. VIP technology has the potential to significantly reduce energy use when applied to retrofits in cold-climate low-rise installations, where roof area is a significant fraction of overall surface area.

SIN	Item Number	Product Description	Commercial Price	Unit of Issue	GSA Discount	GSA Price w/ IFF
563-4	20131	THRESHHOLD Vacuum Insulation Panel - VIP R50 1' Thick Low Height Insulation Panels	\$16.00	Sq. Ft.	12.5%	\$14.10

Roof System Design Assistance. Inspection. Installation. and Site Preparation services are provided to insure our clients continuity throughout the roof-to-roof process. Our expertise and field experience with roof restoration, repairs, and replacement is unequalled. Within our service packages, we also bring US Green Building Council Expertise and photovoltaic experience to insure you will be on the leading edge of technology.

RRI is the Leader in Sustainable Roofing with Bio-Based Technology – Materials and Applications

Roofing Resources, Inc. has developed programs to provide clients high performance, environmentally sound roof system options. Biobased roof, masonry, and metal coatings , derived from soy-oil polymers, provide applications that outperform traditional petroleum, waterproofing equivalents.

Roof Design Assistance:

563-4	Minimum Repairs	\$2,500.00
563-4	Restoration %	8%
563-4	Re-Roofing %	10%

Roof Project Monitoring has become a vital service to insure that roofs are installed “as specified” and that the contractor has a qualified person to answer questions quickly to help the project meet posted deadlines. Our in-house personnel average over 20 years field roofing experience each to protect your financial investment.

Roof Project Monitoring:

563-4	Daily Rate	\$750.00
--------------	------------	----------

Roof Collapse Monitoring ([Guardian Safe Roof System](#)) is a laser beam sensor device that, when disrupted, will immediately warn the building inhabitants, providing ample time to correct the situation, thus avoiding a potential collapse. Snow loads, ice, water ponding due to drain failure, and wind all contribute to a possible catastrophe. This unique system protects lives and notifies authorities of potential disaster. (Click on the blue text above to see the Guardian Safe Roof System Brochure).

Roof Collapse Monitoring:

563-4	1 Unit	\$10,000.00
563-4	2 – 5 Units	\$9,000.00
563-4	6 – Above Units	\$8,000.00

** Pricing does not include installation fees*

Prime Roof Maintenance Warranty Program 10 Year New

The roofing industry as well as building owners and engineering maintenance managers have historically known that roofs need to be taken care of if they are to reach their expected life and if the owner wants to control costs. The dilemma is how to accomplish this.

Keeping warranties intact and prevention of failure can save your organization literally millions of dollars. How do you keep track of multiple buildings with various roof areas, catalog problems, budget projections, and remedial work, as well as new roofs or additions to the site?

The **GOAL** is to obtain the highest quality system within budget constraints, with the best life cycle costs, as well as planned, well-documented programs for ongoing maintenance, repairs, and restoration.

The Guardian Roof Management Program is a proactive, cost saving, management service. This service provides:

- A detailed, CAD based, drawing record of all roof areas showing, by digital photo, existing conditions, concerns, and recommendations with budget analysis.
- Annual (at minimum) inspection and maintenance of roof systems by experienced experts.
- Highly secured browser-based environment.
- Annual updating of the roof database.
- User-friendly owner access to the automated database.
- 24/7 emergency and leak response.
- All facets of the site work, data input, and project support will be managed by a single source of experienced roof system specialists, independent of material manufacturers and roofing contractors.

Facility Managers can now delegate roofing matters to a group of specialists who will professionally manage these assets. The benefits are: 1) extended service lives for existing roof systems; 2) lower life cycle costs; 3) a more consistent, corporate-wide approach to roof system design, procurement, and maintenance; 4) use of corporate purchasing power to lower costs; and 5) ability to reallocate in-house resources away from roofing issues.

It is a well-proven fact that maintenance is most effective when preventative in nature. This is particularly true for roof systems, which have too often been neglected or handled in a reactive manner. We can now take a proactive approach to protect existing warranties, extend existing roof system lives, and make sound repair/renew/replace decisions. This program will have a positive impact on short and long-term facility costs.

Prime Roof Maintenance Warranty Program 10 Year New:

563-4	Up to 10,000 Sq Ft		\$1,772.75
563-4	Over 10,000 Sq Ft – Add _____ per Sq Ft	Per Sq Ft	\$0.120
563-4	15 Year Option	Per Sq Ft	\$0.170
563-4	20 Year Option	Per Sq Ft	\$0.240
563-4	25 Year Option	Per Sq Ft	\$0.300
563-4	Maintenance Warranty – Per Year	Per Sq Ft	\$0.090

Guardian, LTC Roof Program with Maintenance – Leak Free Support

Facility Improvement Validation Program

Designed to Address – The Executive Order Regarding Improvement of Building Assets and Conditions

Roof Guardian, LTC (Long Term Care) now offers a Leak Free Guardian Warranty to Federal Government Agencies. This warranty is designed to provide facility managers with a leak free roof system. Guardian Warranties are available up to twenty five years during which buildings will be maintained leak free.

To protect the aging infrastructure we will initially inspect all roofs to validate their conditions. This data will be presented on a dedicated Roof Guardian online web based site, which will include drawings, budgets/recommendations, and photographic documentation. Prior to issuance of a warranty, deteriorated or deficient roof systems will be brought up to a qualified standard. Then, on a twice a year schedule, our staff of experienced and qualified technicians will conduct thorough inspections and accomplish needed maintenance on included roof systems. These inspections enable the Guardian Warranty to insure a leak free building environment.

Included in the Governments warranty is Roof Guardian, LTC's Emergency Leak Response Program which provides the facility owner/manager with a 24 hour per day hotline for prompt, expert response to any roofing emergency.

The Leak Free Guardian Warranty is designed to help government facilities realize a greater return on their roofing investment by providing consistent, effective maintenance, and a leak free roof system. This program provides detailed annual

inspections, preventive maintenance services, and a web based data archive to track everything pertaining to your roof system.

View our [Sample Leak Free Performance Warranty](#) and [Repair & Maintenance Guide for Leak Free Performance Warranty](#). (Click on the blue underlined text to view either the Sample Leak Free Performance Warranty and or the Repair & Maintenance Guide for Leak Free Performance Warranty)

General Roof Leak Services are provided as a support function for on-call type items that are not part of a total program.
